

# Music Technology Summer Task

This should be completed over the summer break and the outcome / work should be brought to your first Music Tech lesson in September.

Chose 4 tracks / songs which you really like. Chose these from 2 different genres.

Listening to the tracks, for each track, identify as many different components / instruments as you can and list them.

Write a paragraph each, explaining what it is you like about each of the 4 tracks.

Watch this Youtube Video and write a short commentary on what you have learnt from it:
