

## Textiles Summer Task

Research the film and stage show 'Into The Woods'

You need to find a small item to up-cycle. This can be a glove, hat, shoe or anything of a similar size. You should find something which would otherwise be thrown away or have a look around some charity shops to pick up something cheap. It does not have to be an item of clothing. You can use any other materials in conjunction with it and the piece can be any scale but you should use the theme of Into The Woods (the stage show or film) as a starting point to present your piece.

Use your imagination and be inventive. We will look at them all in the first lesson after the summer.
